PROJECTED
DOWNTIME ↓

Recognizing leaders who build systems, elevate skills, and strengthen OMNI's production across all shifts.

JD

Justin DeFrancesco

Distribution & Facilities Manager

OPERATIONAL ANCHOR

- **Distribution Excellence:** Ensures outbound shipments meet OMNI's accuracy, speed, and reliability standards.
- **Facilities Readiness:** Maintains a safe, efficient, and production-ready facility environment.
- **Logistics Coordination:** Aligns inbound materials and outbound freight to avoid disruption.
- **Team Leadership:** Sets clear expectations and supports teams with consistent, steady guidance.

JR

Justin Rowan

Promoted: Second Shift Lead → Third Shift Manager

SKILL BUILDER

- **Operator Training System:** Implemented a structured program to assess skill gaps and upgrade operator capabilities.
- **Standardized Pathways:** Created clear, repeatable training steps for every operator on the shift.
- **Hands-On Press Training:** Focused on practical, press-side learning to boost confidence and reduce errors.

BH

Blake Harrington

First Shift Setup Operator • Training & Technical Support

PRODUCTION SUPPORT

- **Hands-On Training:** Provides real-time guidance to operators while actively running a press.
- **Technical Assistance:** Helps troubleshoot press issues to prevent downtime and keep lines moving.
- **Growth Mindset:** Invests in operator development to drive production and long-term growth.

Ken Roy & the ANDGO System

First Shift Manager & System Builder

ANDGO SYSTEM

A modern ANDGO escalation light system aligning OMNI with best-in-class manufacturing and food-service practices for real-time support and reduced downtime.

1

LEVEL 1

Target: ≤ 5 min

Die Strike Sign-Off / Basic Verification

Operator needs a quick approval or check before continuing.

2

LEVEL 2

Target: ≤ 15 min

Running Smooth • Check-In

Operator is stable but requests a brief confirmation or review.

3

LEVEL 3

Target: ≤ 5 min

Press / Process Assistance

Operator needs hands-on help with the press or a process step.

4

LEVEL 4

Target: Immediate

Urgent Support Required

Immediate supervisor response needed to resolve a critical issue.

Quarterly Focus

Metrics & Outcomes (Projected)

PERFORMANCE

- **Downtime Reduction:** Track impact of ANDGO and training systems on press and line availability.
- **Operator Skill Progression:** Measure training completion, cross-training, and confidence across shifts.
- **Throughput & Accuracy:** Monitor production output and shipping accuracy as systems mature.

Projected Downtime Trend (min/week)

W1: 120	W2: 110	W3: 95	W4: 80	W5: 65	W6: 45
---------	---------	--------	--------	--------	--------

Skill Progression (% Trained / In-Training)

Shift 1: 85/15	Shift 2: 60/40	Shift 3: 45/55
----------------	----------------	----------------
